

The Bear

activity book

Did you know?

There's a lot more to bears than being cuddly.

1

There are eight species of bears.

2

Bears are omnivorous, meaning they eat basically everything.

3

Bears have an excellent sense of smell, even rivaling that of dogs.

4

Bears are highly intelligent animals. They can count, use tools, solve problems, and communicate with a range of vocalizations and complex facial expressions.

5

Despite their size and heavy build, bears are good runners, climbers, and swimmers.

6

Over the winter, bears dig dens or use shelters such as caves to go into a deep sleep during winter periods.

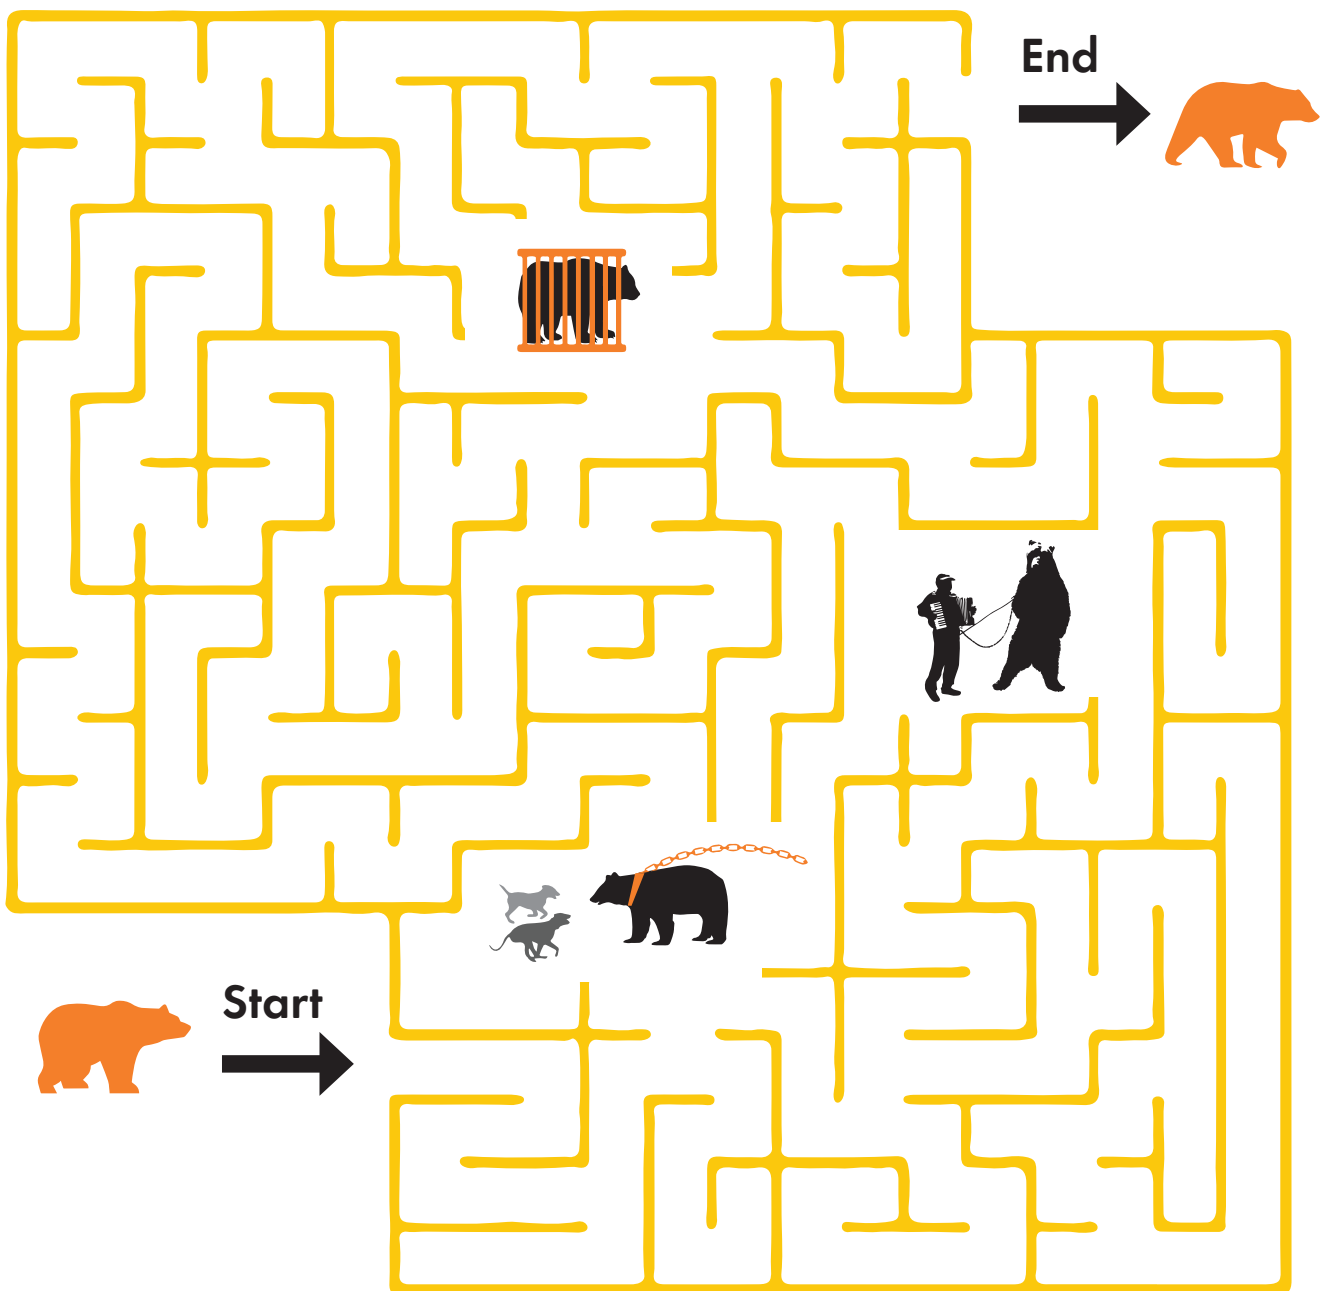

If you love bears, one way to help them is

see them in the wild
where they belong.

Bear maze

Help set a bear free.
Bears need your help to avoid dangers.

Bears have their own
amazing, unique personalities.

Create your own bear.

We are World Animal Protection.

We end the needless suffering of animals.

We influence decision makers to put animals on the global agenda.

We help the world see how important animals are to all of us.

We inspire people to change animals' lives for the better.

We move the world to protect animals.
